

G. L. Frank Leaves for Radio Training in States

Relatives and friends gathered at Dakota field to see Gregorio Frank (wearing coat) off for several weeks study in the States. At the left are F. M. Scott, head of Training, and P. E. Jensen, general foreman, Instrument.

Gregorio L. Frank, staff foreman in the Instrument Department, left September 23 for the United States for eight to ten weeks' training on radio two-way communication. Expenses of his trip - tuition, living expenses, and other costs - are being paid for by the Company.

He will first go to Chicago where he will spend about two weeks at the Motorola Corporation to observe manufacturing techniques.

The remainder of the time will be spent with Mobile Communications, Inc., Newark, N.J., where he will study installation and maintenance of the Motorola mobile two-way radio equipment.

Mr. Frank has been with the company eighteen years. This will be his first trip to the States.

At the airport the day he left he appeared calm but said he was anxiously looking forward to his trip. He will miss his wife and four children, he said, but they plan to spend a month of the time in Curaçao visiting relatives.

SPRC Candidates Are Nominated

At a meeting of the nominating committee of the Lago Sport Park Recreation Committee last week, the following persons were nominated as candidates for the Recreation Committee election October 24-25: R. H. Abrahamsz, Accounting; J. Briezen, Catalytic; C. A. Brown, M&C Instrument; H. de Vries, TSD Process Design; C. E. Hassell, M&C Administration; K. R. Khan, Accounting; George F. Lawrence, Catalytic; M. I. (Carlo) Lake, M&C Storehouse; Robert Martin, M&C Administration; C. R. McDonald, M&C Metal Trades; A. M. Matthews, M&C Administration; S. R. Malmberg, Accounting; M. Reyes, M&C Electrical; D. De S. Ridderstap, Medical; G. E. S. Straughn, I. R. Training; D. N. Solomon, Colony Service; C. A. Tromp, Executive Office; Ph. Volkerts, TSD Lab No. 3; F. West, M&C Carpenter; and J. L. Wever, TSD Engineering.

The above names will be listed on the ballots for the election. Employees whose names do not appear here and who wish to have their names entered on the ballot, should write a petition to the Nominating Committee. Petitions must carry the signatures of at least 100 eligible voters. Petitions should reach the Nominating Committee not later than October 11, and should be addressed to Public Relations Assistant, c/o Public Relations Department, B. Q. No. 3, Training Building.

The October 19 issue of The Esso News will carry the names and pictures of those nominated by the committee and also by petition.

Schedule of Paydays

Reduced Hosp. Rates for S&R

As announced in the September 7 issue of the Esso News — giving results of the special mediation — reduced medical charges for family members of about 4,000 staff and regular employees went into effect on September 1. These reduced charges apply to family members of employees up to and including tradesman B and corresponding wage classifications, and employees earning Fls. 460 a month or less.

Medical charges for family members of all other employees remain unchanged.

Under Fls. 460 Per Month

The reduced medical charges for family members of employees at the tradesman B level, or those getting Fls. 460 or less are as follows:

Clinic Charges

During normal clinic hours: Fls. 1
Outside normal clinic hours: Fls. 2.50

Clinic charges will include routine laboratory work such as urinalysis, simple blood counts, etc., but will not include special laboratory procedures and X-ray work. Prescribed drugs will be free of charge.

Hospitalization Charges

Fls. 3 per day for 1st week
Fls. 2 per day for 2nd week
Fls. 1.50 per day for 3rd and 4th weeks
Fls. 1 per day thereafter

Obstetrical Services

Prenatal clinic blanket charge: Fls. 15.
Delivery and postnatal charge: Fls. 55.

Special Charges

Laboratory Services

The following charges will be made against each examination conducted for clinic or hospitalized patients in accordance with the group in which the examination falls:

Group I Includes the procedures to be conducted free of charge as part of clinic or in-patient charge.

Group II Fls. 1

Group III Fls. 2

Group IV Fls. 3

Blood Plasma

The present charge for 50 c.c. of blood plasma is approximately Fls. 7.00, subject to change dependent upon actual cost of subsequent shipment. (Turn to page 2, col. 1)

Dangers of Political Unions Pointed Out in Conferences

The disaster that political unions could bring to Lago and Aruba was strongly emphasized in a series of conferences for supervisors that began September 29. Speaking at the opening session, General Manager O. Mingus pointed out that Lago — as well as Jersey Standard — is not against labor organizations.

Peligronan di Union Politica a worde demonstra

E desastre cu unionnan di trahadornan ariba base politico lo por trece pa Lago y Aruba, a worde fuertemente acentua den un serie di conferencianan cu a worde teni pa e formannan cuminsando dia 29 di September. Papiando na e prome reunion, Sr. O. Mingus, gerente general, a splica cu Lago — tampoco Jersey Standard — no tin nada contra di organizacionnan di trahadornan.

"Al contrario," e a bisa, "nos ta kere cu trahadornan tin derecho pa organiza."

Lago tampoco no ta contra ningun di e partidanan politico di Aruba.

"Pero nos ta contra di formamento di unionnan di trahadornan ariba base politico, y esaki ta e motibo pakiko," Sr. Mingus a sigui. "Un partida politico ta haya votonan door di priminti cosnan na e votadornan. Un union politico lo existi door di priminti cosnan na e trahadornan. Pa motibo di competencia entre e partidonan, e promesanan aki pronto lo duna e tendencia di perde nan balor realista. E resultado lo ta dificultadnan y costonan asina halto cu nan lo no por worde cargá. E resultado lo ta 'Ayo Lago! E resultado ta 'Ayo Aruba!'"

"Tin un otro motibo mashá practico pakiko Lago ta contra di union politico," Sr. Mingus a bisa.

Siendo cu lo tin dos o mas organizacion pa tin di haci cu nan, nos ta kere cu lo ta casi imposibel pa logra un atmosfera adecuado den cual pa negoshá. Nunca bo lo ta sigur cu en realidad bo tin di haci cu hendenan cu ta representa e trahadornan."

Sr. Mingus a bisa cu si dificultadnan di problemanan di trahao bira realmente serio na Aruba, Lago lo worde forzá pa bai. E decision pa bai lo no worde haci door di Lago, pero si door di Venezuela y e 38 teranan extranhero na unda nos productonan ta worde mandá. Pasobra Venezuela ta depende ariba Lago pa refina un gran parti di su produccion diario di petroleo crudo; si Lago no ta operan-

Lake Tankermen Elect 5 to Council

At the twenty-seventh regular meeting of the Lake Tankermen's Committee on September 27, the Ship's Representatives agreed to the formation of a small committee from among their group. This committee would be empowered to enter into discussions with Esso Transportation Company management on matters affecting the Lake Fleet unlicensed personnel.

Following the regular meeting a caucus meeting of the Ship's Representatives was held. The following members were elected by ballot to form the small committee to be known as the Lake Tankermen's Council: D. L. van Putten, N. E. Sampson, L. E. Marchena, J. Joseph and V. R. Pataca. Mr. Van Putten was elected president and Mr. Sampson, secretary.

Each of the members of the council has more than 10 years of service with the company.

The present system of representation from the vessels of the Lake Fleet, by means of the Lake Tankermen's Committee, will be continued as in the past. However, it is expected that the formation of the Lake Tankermen's Council will improve this system.

G. L. Frank Ta Bai E. U. Pa haci estudio di Radio

Gregorio L. Frank, Staff Foreman den Instrument Shop, a sali pa Estados Unidos dia 23 di September pa sigui un estudio di ocho te diez siman den radio comunicacion (reception y emision). Su estudio na Estado Unidos — tambe tur otro gastonan — lo worde pagá door di Lago.

Prome el lo bai Chicago na unda el lo pasa mas o menos dos sinan na Motorola Corporation pa observa metodonan di fabricacion.

Resto di e tempo lo worde pasá na Mobile Communications, Inc., Newark, N.J., unda el lo studia instalacion y mantencion di aparatonan mobil di comunicacion.

Sr. Frank tin 18 anja di servicio cu Compania. Esaki lo ta di promer biaha cu el ta bai Estados Unidos.

Dia di su salida pa Estados Unidos el a aparece masha calma ariba vlieg-veld, pero el a declara cu el tabata ansioso pa su biaha cuminsa. El lo haci falta di su señora y cuater yiu, el a declara, pero esakinan lo pasa un luna di e tempo bishitando familia na Curaçao.

Members of the Lake Tankermen's Council, a group recently formed from among the members of the Lake Tankermen's Committee are, seated, L. E. Marchena and N. E. Sampson; standing, left to right, are D. L. van Putten, V. R. Pataca and J. Joseph.

"Quite the contrary," he said, "we think workers have a right to organize."

Neither is Lago opposed to any of Aruba's political parties.

"But we are opposed to the formation of political labor unions, and here's why," Mr. Mingus continued. "A political party gets votes by promising things to the electorate. A political union would exist by promising things to the worker. Because of competition between parties, these promises would soon tend to become unrealistic. The result would be trouble and unbearably high costs. The result would be 'Goodbye Lago.' The result would be 'Goodbye, Aruba.'"

There is another very practical reason for Lago's opposition to political unions, Mr. Mingus said.

"Since there would be two or more organizations to deal with, we believe it would be virtually impossible to attain an orderly bargaining atmosphere. You could never be sure that you were actually dealing with people representing the workers."

If labor troubles in Aruba became serious enough, Mr. Mingus said, Lago would be forced to leave. The decision to leave would not be made by Lago, but would be made by Venezuela and the 38 countries to which we ship products. For Venezuela depends on Lago to refine a big portion of its daily crude production; if Lago is not operating because of labor difficulties, then Venezuela must close down many of its oil wells and suffer a big loss in revenue. And the 38 countries to which Lago sends products expect to receive those products on time and at a fair price. If Lago fails to meet its commitments to these nations, they are going to go elsewhere to obtain petroleum products.

Both Venezuela and the nations where Lago markets its products were extremely concerned over the recent strike here, Mr. Mingus said. To them, the strike was much more than just an Aruban or Netherlands Antilles matter; it vitally affected them and their entire economy.

He touched briefly on the two main reasons why Lago was established in Aruba: because Aruba had stability which would permit uninterrupted operations, and because it would be a low-cost operation. That Lago is a low-cost operation is not due to low wages, poor working conditions, or lack of employee benefits; in fact, Lago is a leader in these fields in this hemisphere. Lago's low-cost operation depends on a number of other factors, main ones of which are economic location, low-cost equipment, and high volume throughput. Aruba is conveniently located to the rest of the world, and its haulage point to its markets is good. This gives Aruba a shipping advantage over many other sources of petroleum products. And the fact that Lago maintains an extremely high throughput keeps costs down.

"Both these conditions — stability and low-cost operations — must be met if Lago is to remain in Aruba, because there is no raw material (oil) here, and there is no market," Mr. Mingus said. "Therefore, both the crude supplier and the product buyer must be convinced that this is their best and most profitable deal, if we are to continue to exist."

Obviously, Venezuela is very interested in how Lago conducts its business, and as long as it is more economical and profitable to refine in Aruba, Aruba's position has a good chance of remaining secure. The 38 countries that buy oil products from Aruba will continue to do so as long

Hospital Charges

(Continued from page 1)

ments.

The present charge of Fls. 50.00 will be maintained for blood used in blood transfusions when purchased from a professional blood donor.

Miscellaneous Injections, Light Treatments, etc.

The following charge, in addition to the charge for clinic visits, will be applied for these — Fls. 1.00. No charge will be made on repeat visits where these are handled by a nurse and where no consultation with a doctor is involved.

X-ray charges will be based on the individual films used. A single picture, therefore, will cost the base charge stated below. Two films as in stereoscopic examination of the chest will be two times this figure. When it is necessary to use five films the charge will be five times the individual film rate, etc.

Base Charge Fls. 2.00

Surgical Procedures

The following charges will be made for surgical procedures, including the use of operating facilities:

Minor surgical procedures and operating facilities - Fls. 15.

Major surgical procedures and operating facilities - Fls. 30.

No medical charge against family members will be made when the medical services rendered result from conformance with Company policy or have been at the direct request of the Medical Department because of overall public health procedures. Services in these categories will include prophylactic vaccinations or inoculations against contagious diseases, and specific examinations and consultations considered necessary by the Medical Department in the control of an existing epidemic.

Hardship Cases

Hardship cases will be given special consideration by the management.

General

The above information does not change the present medical policy or regulations, except for the revised charges and the new charges outlined.

All charges in detail, listed by category of employees, are posted in the family waiting rooms in the hospital.

Over Fls. 460 Per Month

Medical charges for family members of staff and regular employees getting more than Fls. 460 are as follows:

Clinic charges

During normal clinic hours: Fls. 1.50.

Outside normal clinic hours: Fls. 2.50.

Clinic charges will include routine laboratory work such as urinalysis, simple blood counts, etc., but will not include special laboratory procedures and X-ray work. The clinic charges will include prescribed drugs to the value of Fls. 1.88. When the value of the prescribed drugs amounts to more than Fls. 1.88, then a charge will be made for the difference between Fls. 1.88 and the actual cost of the drugs. This also applies to cases in the hospital.

Hospitalization Charges

Fls. 4 per day

Obstetrical Services

Prenatal clinic blanket charge: Fls. 15.
Delivery and postnatal charge: Fls. 55.

Special Charges

Laboratory Services

The following charges will be made against each examination conducted for clinic or hospitalized patients in accordance with the group in which the examination falls:

Political Unions

(Continued from page 1)

as it is economical and profitable for them. Aruba's costs must remain comparatively low in order to compete with other sources of supply, particularly with refineries or projected refineries in these 38 countries; for their production will be protected by import taxes which favor the home refinery. Also, for currency reasons and to provide employment for their own people, these buyers of Lago's products are anxious to import oil and do the manufacturing within their own country. These factors make profit for Venezuela and low price to the consumer of vital importance to Lago and Aruba.

History shows that, where political unions have been active, results have been harmful to the company, the employees, the general public, the country's economy, and even to the political parties themselves.

As an example of what labor unrest can do to a large company, Mr. Mings cited the recent case of the United Fruit Company in Guatemala. There, because of unrealistic labor demands, United Fruit has announced it is liquidating its 80 million dollar holdings and moving out of the country.

The Answer

Lago is against political labor unions, but it is strongly for something as well. That is the Lago Employee Council.

"On the LEC are representatives freely elected by all our workers, and only our workers, with the right to bargain on wages, hours, and working conditions. We believe that is the best setup for Lago and for Aruba," Mr. Mings said.

Because of frequent elections, employees have a chance to express their approval or disapproval of their representatives on the LEC.

The LEC is still young — less than two years old — but it has made progress as a negotiating body, and can develop into a strong organization capable of handling all employee matters with Company management. In the LEC lies Lago's — and Aruba's — hope. For if Aruba carries labor into political fights, it faces the same disastrous strife that has proved fatal in so many other countries.

Peligro di Union Politico Mustrá den Conferencianan

(Continúa na pagina 1)

do pa motibo di dificultad cu trahadornan e ora Venezuela mester cera hopi di su poznan di azeta y sufri un perdida grandi den renta. Y e 38 paisnan na unda Lago ta manda productionan di azeta ta depende di ricibi e productionan ey na tempo y un prijs razonabel. Si Lago faya den cumplimiento cu su compromisonan cu e paisnan aki, anto esakinan lo trata di obtene productionan di petrolofo'i otro lugar.

Tanto Venezuela como e otro teranan unda Lago ta bende su productionan tabata masha preocupá over di e ultimo huelga aki, Sr. Mings a bisa. Pa nan, e huelga tabata mucho mas cu solamente un asunto di Aruba di Antillanan Neerlandes; nan y henter nan economia a worde seriamente afectá!

El a papia brevemente over di e dos motibonan principal pakiko Lago a worde estableci na Aruba: pasobra Aruba tabatin estabilidad cu tabata permiti operamento sin interrupción, y pasobra su operamento lo tabata di costo-abao.

Cu Lago su operamento ta di costo-abao no kier meen cu esey ta pa motibo di sueldonan abao, condicionnan pover di trabao of falta di beneficio-nan pa empleadonan; en realidad,

Taken to the Cleaners'

This eight-inch-long centipede was found alive in a bundle of laundry recently. It was caught alive and sent to the high school laboratory in a bottle. This is one of many such creatures which have been found in cases of laundry.

A traditional ceremony was held recently by members of the local A.M.O.R.C., Rosicrucian Aruba chapter, at Foresters Lodge. They symbolically re-enacted the building of the Great Pyramid of Cheops at Gizeh, which was a temple of learning. The Rosicrucians trace their traditional origin back to Amenhotep IV, Pharaoh of 1350 B.C. The Master, H. Spong, right, Power House conducted the ceremony, and the chaplain, R. Louisy, standing in center, Garage Transportation offered a prayer.

Un ceremonia tradicional a worde teni recientemente door di miembronan di A.M.O.R.C., seccion Arubano di institucion di Rosicrucian, na Foresters Lodge. Simbolicamente miembronan di e organizacion a re-construi e Gran Pyramid di Cheops na Gizeh, cual tabata un templo di sahiduria. Rosicrucianan ta demonstra cu nan origen tradicional ta origina for di tempo di Amenhotep IV, Farao di Egypto na anja 1350 promer cu Cristo. E Maestro, H. Spong, banda drechi, Power House, a dirigi ceremonianan, y kapelaan R. Louisy, mei mei, Garage & Transportation, a reza un oracion.

108 Winners Make July Biggest CYI Month

July was really a big month for alert employees who sent in suggestions to Coin Your Ideas. More cash awards were made that month than in any other month in the history of CYI Awards, totalling Fls. 5225, went to 108 winners. Top award of Fls. 1500 went to Capt. R. J. Storie - he won Fls. 1500.

These 108 employees prove once again that good ideas are worth money. And Coin Your Ideas is always happy to pay good money for good ideas. Have you sent any ideas in to CYI lately? If not, give it a try. Take a good look around you — not only at your own job, but at other operations. Look for safer ways to do things, for better, more efficient ways to perform various operations. Jot your ideas down on a piece of paper and mail them to Coin Your Ideas. That's what these 108 winners did, and their ideas paid off for them. Your ideas can just as easily pay off for you.

Here are the 108 CYI winners for July:

R. J. Storie Fls 1500
Variation in tank cleaning procedure prior to loading diesel oil tankers.

J. E. Peterson Fls 650
Connect no. 12 crude line to no. 7 crude line between tanks no. 158 and 159.

V. O. Figaroa Fls 100
Salvage flanges obsolete cargo hoses.

B. Williams Fls 90
Reduce speed setting for chart travel - Machine Shop.

Joe D. Huffman Fls 60
Design re raising & lowering deep well oil recovery pumps.

D. F. Amick Fls 50
Use crankcase drainings instead of SAE-20 Concrete Block Plant.

Owen Banfield Fls 50
Construct jig for machinery closure discs - Machine Shop.

William D. Casey Fls 50
Erect rack for storing crane load blocks.

Roston I. Coons Fls 50
Design for packing ram - 5"x24" and 5 1/4"x24" National transit pumps - Pressure stills No. 1-8.

M. J. De Lange Fls 50
Design for souvenir plaque.

H. C. Does Fls 50

Fuller - removing impellers from shafts.

Mariano Garrido Fls 50
Reinforce upper structure, balance support framework - Clyde handi-crane.

H. P. Gittens Fls 50
Counterbore tube sheets and install monel shoulder stay bolts - No. 1 Powerhouse.

H. E. Johnson Fls 50
Install 4" connection between vapor Exch. crude outlet & 5" Circ. line - Units Nos. 5-8.

Edward J. Kulisek Fls 50
Purchase standard portable vapor degreasers.

J. R. Reimel Fls 50
Eliminate sending N.Y. Office cables advising departure of passenger carrying tankers Aruba - N.Y.

Christopher Romney Fls 50
Lockers - tool boxes - Colony Maintenance.

A. Schwarz Fls 50
Exchange hi octane butane feed pump 895 with low o.b. pump no. 886.

C. van den Berg Fls 50
Install fire escape ladder - Projection booth - Lago Club.

W. O. Weber Fls 50
New procedure to be followed on refinery fire drills.

Austis H. Gibbs Fls 45
Relocate telephone cable terminals for easier access.

J. Lambert Fls 40
Improve access to area around supervisors training building.

Merle W. Morris Fls 40
Install street lighting on road from bus stop at end of 900 row to stop (bus) at Colony Shops.

F. Parris Fls 40
No. and revise form to conform with printed L.O.T. form.

J. L. Weaver Fls 40
Re designing pump and motor bases - secure weight from manufacturer when ordering.

Whitney Rogers Fls 40
Illuminate water cooler booths & install walkway - Esso Heights new bunkhouses.

G. L. Arindell Fls 35
Provide rope ladder in crane cab Main Machine Shop.

Wilhelmus Hopmans Fls 35
Method for cutting tube bundles - clamp for power saw.

J. S. James Fls 35
Fabricate set for drill bushings for drilling out broken studs - H. O. Pumps - Combination Units.

M. Nicolaas Fls 35
Install 2" spool with 1/2" coupling welded in center steam connection R & S Docks.

I. M. Woolems Fls 35
Construct and use offset tongs in changing cone - Peabody Burners.

D. F. Amick Fls 30
Install mesh or drilled tubes strainer on suction end of sump pump - New Finger Pier No. 1.

E. A. Johnson Fls 30
Extend lips of funnel catching aromatic oil from settler top - PCAR.

F. Riggs Fls 30
Remove center flanges from drums - air hoists at Finger Pier.

J. Tousaint Fls 30
Widen stair treads - stairs leading new quarters at Esso Heights - no. 11 & 15.

Gregorius Tromp Fls 30
Suggest pallet design (Hyster).

G. L. Arrindell Fls 25
Place spotlight on pick-up - Zone no. 1.

Joseph Benjamin Fls 25
Relocate main 1.5" propane gas line running from Esso Dining Hall to Hospital.

Allan J. Black Fls 25
Install 2 block valves between boiler & float cage - Lago Hospital.

O. E. Carty Fls 25
Install iron stand (portable) - No. 2 Evap. Plant.

Edgar V. Connor Fls 25
Use hardened ground drill sleeves on all taper shank tools in Refinery.

J. de Lange Fls 25
Provide receptacle for distilled water - Col. Filling Station.

Mariano Garrido Fls 25
Install disappearing ladder - link belt cranes.

S. Geerman Fls 25
All new employees to be introduced by foreman to their district representatives.

E. Glasford Fls 25
Close up space opposite isolation door in wall - Hospital.

V. Jacobs Fls 25
Remove 440V breakers & housing from precipitator panel & install in control circuit of motors no. 1431 & 1432 - LEAR.

C. Lachner Fls 25
Install spool between control valve and 2" block valve - L.O.S. & S. Plant.

M. I. Lake Fls 25
Convert clarified oil flowmeter slitty service to flushing oil method.

L. L. Morris Fls 25
Safety Hazard - 1/4 mile north of Main Street & 10th Ave.

Anita Paul Fls 25
Install wash basin on section "E" porch - Hospital.

E. J. Philipzoon Fls 25
Install safety shower near 8 barrel agitator - No. 3 Lab.

G. C. Ramsey Fls 25
Identify card to be attached to all assignments - Lake Tankers.

F. Ras Fls 25
Identify water connection on Lake Tankers.

M. R. Reemmet Fls 25
Fabricate & install metal tags re timing refrigerator shelves.

F. Riggs Fls 25
Lay a paving mix runway over pipe trench N.E. of control house between T.A.R. & GSAR.

Th. R. Saltinus Fls 25
Install time card rack in each permanent nursing section - Hospital.

A. Werleman Fls 25
Construct roof on West side of GAR-1.

H. E. Ahma Fls 20
Use stencilled invoice form - for visitors & for transient guests.

R. Anthony Fls 20
Connect 1" drain line to no. 5 crude still drain to sewer.

R. Anthony Fls 20
Install bleeder line above main caustic valve - extend to sewer - no. 3 R.R.

Cecil Barran Fls 20
Use infra red lamp to determine I.P. freezing points.

R. C. Busacker Fls 20
Improve housekeeping - G.O.B.

R. Chang Yit Fls 20
Improvement to safety - Lago Heights hill.

Alleyne Chichester Fls 20
Install proper foundation for ladder - east of No. 8 rerun still (Main steam line).

R. D. Dijkhoff Fls 20
Install mirrors in PCAR utility buildings.

W. T. Dowers Fls 20
Install fitting on air tanks of cranes to inflate tires.

S. R. Dublin Fls 20
Install hand rail on tank no. 264.

Nydia Eenry Fls 20
Receptacle for ice delivered to BQ No. 3 - Esso News.

J. Francis Fls 20
Rotate acid control valve on product settler - AAR-2.

Edwin L. George Fls 20
Relocate hydrant connections from south to north gas oil transfer pumphouse.

A. Hack Fls 20
Install screen door eastern entrance T.S.D. Annex.

J. P. Halley Fls 20
Install bulletin board in shipyard shop office.

N. J. Hayes Fls 20
Provide wall lamp - Ante-room of ladies rest room - Marine Office.

H. J. Hengeveld Fls 20
Substitute MS-374A for regular ditto copy paper MS-524A - Storehouse.

A. Jack Fls 20
Orange pennant to be flown - Royal family members' birthday.

V. Jacobs Fls 20
Remove unnecessary equipment from precipitator panel.

V. Jacobs Fls 20
Remove Hart and Hegeman switches from precipitator panel & replace with C.R. 106 1 H 2 A G.E. switches.

V. Jacobs Fls 20
Discontinue ordering H & H switches & heaters.

V. T. Morgan Fls 20
Use standard toilet valves on local hired toilets - Main Electric Shop.

W. Nahar Fls 20
Change in administration procedure I. R. Training Division.

Fred Parris Fls 20
Ind. Rel. Minutes distribution - save white envelopes.

Charles Phillips Fls 20
Install concrete supports under 4" pipeline south of tanks no. 382.

Alfred W. Phillip Fls 20
Install mirror on wall - Util. Room Lab. no. 1.

H. L. Riviears Fls 20
Erect permanent pier to support flow control manifold - 6" refinery condensate line.

C. Romney Fls 20
Additional supports for safety release lines- no. 12 Aviation Still.

V. Romeo Fls 20
Improve milk bar facilities.

J. A. Royer Fls 20
Install extinguisher site "X" shack.

L. Simon Fls 20
Relocate clock to position above door of Lah. no. 1 office.

S. Solomons Fls 20
Install guard over Esso Club kitchen walk in box machine.

G. Strang Fls 20
Provide illumination - gland recovery drum - no. 11 Gas Oil.

P. J. Tackling Fls 20
Install connection from valve outlet on test well pump No. 1585 etc.

G. P. Tromp Fls 20
Re-orient floor plates north west of laundry (covering pipe lines).

G. P. Tromp Fls 20
Fabricate safety cage ladder between tanks no. 94 & 95.

J. Tromp Fls 20
Install extension line to 1/2" steam line valve - flash drum and tower level gauge glass - no. 3 Rerun Still.

E. R. Winklaar Fls 20
Install check valve on steam line to stripper no. 1 & 2 Crude Stills.

O. Yanex Fls 20
Improvements to shops' fire protection facilities.

Highest award for July CYI suggestions went to Captain R. J. Storie, left, who was given Fls. 1500. Marine Manager J. Andreae makes the presentation while Captains MacLean and Thomas look on. Captain Storie's idea was a variation in tank cleaning procedure prior to loading diesel oil tankers. The use of the suggestion has resulted in a substantial monetary saving to the Company.

Walter Beyer, L.O.F., standing, left, receives his CYI capital award of Fls. 200 from J. M. Whiteley. Mr. Beyer, whose winnings for his idea total Fls. 600, was on vacation when the capital awards were presented in July.

Walter Beyer, L.O.F., pará na banda robez, ta ricibi un premio mayor di CYI di Fls. 200 for di J. M. Whiteley. Sr. Beyer, kende a ricibi un suma total di Fls. 600 pa e idea caha, ta-hata na vacation ora e premio mayor-nan a worde presentá na Juli.

Heliberto Kelly, M&C Machinist, has received a diploma in Automobile Repairs from the International Correspondence School. It was a 3 1/2-year course. Mr. Kelly has been with Lago 14 years.

Dominican Sisters Aid Bosco Fund

The Unitas Ladies Club of Oranjestad is entertaining as its guests Mother Imelda, the Mother Superior, and Sister Magdalena, both Dominican sisters of Bethany in Holland.

The Unitas is the founder of the Don Bosco Fund, the purpose of which is to raise funds to build an orphanage and home for wayward children in the Noord district of Aruba.

The Dominican sisters are famous for their work in Holland among juvenile delinquents and orphans. The two sisters came primarily to investigate the establishment of a Dominican order in Aruba to run the home when it is completed.

Mother Imelda and Sister Magdalena were Lago's guests last week. They were immensely interested in their tour of the refinery and asked many questions as they went along. They are scheduled to leave Aruba next Tuesday, October 9.

Later this month five Dominican Sisters of Bethany will arrive from Holland. It is planned for them to teach in the school in the Noord parish until the orphanage is built. They will learn Papamentu so they can teach it to those who will teach in the new home.

It is hoped the building will be started early next year.

Sixteen '50 Group Boys Receive Prizes for Shop Work Excellence

Sixteen members of the 1950 apprentice class were recently honored for their excellence in shop work. The awards were based on factors which included good conduct as well as skill and their projects.

The eight boys who won first prize each received a crescent wrench and a hammer. Second prize winners received pocket knives.

Merchants Study Tourism

At a meeting of the Aruba Merchants Association on September 24, it was announced that a sub-committee was appointed to study the tourist question here. Particular emphasis will be placed on what can be done right away to attract tourists to Aruba, esp cially tourists from Venezuela.

It was brought out at the meeting that a great deal can be done now to make tourists' stays in Aruba more enjoyable; many of these things can be accomplished without too great an outlay of money. To finance this project, funds will be solicited from merchants and from others interested in promoting tourism as a major industry in Aruba.

Virginia and Emmette Earl Jones Jr.

The Navy is a family affair for the children of E. E. Jones, foreman, M & C Machinist.

Virginia, 19, and Emmette Earl Jr., 18, recently enlisted in the Navy in El Paso, Texas. Both young people started in Lago High School in September, 1949 and graduated last June. Mr. Jones came to Lago in December, 1948.

Virginia and Emmette had never been separated from each other before their enlistment, but they had both talked about Navy careers for a long time. Their brother James has been in the Navy for three years. When he enlisted they said their minds were made up even though they knew it would separate them.

Emmette has just started his training at the San Diego, California, Center. Virginia is at Great Lakes Naval Training Center, Illinois.

Union Politica

(Continua di pagina 2)

Lago semper ta adilanti den e asuntunan aki den e hemisferio aki. E costo-abao di Lago su operamento ta depende ariba diferente otro factornan, di cual e principalnan ta e sitio economico, instalacionnan di costo-bajo, y su capacidad di volumen halto. Aruba ta situá convenientemente en relacion cu otro partinan di mundo, y su sitio pa exportacion na e diferente puntonan di mercado ta bon. Esaki ta duna Aruba un ventaja den exportamento over di hopi otro fuente di productonan di petroleo. Y e hecho cu Lago ta mantene un produccion asina halto ta tene costonan abao.

"Cu tur e dos condicionnan aki, estabilidad y costo — abao di operamento — mester worde cumpli si Lago ta pa keda na Aruba, pasobra no tin producto crudo (petroleo) aki, y no tin mercado aki tampoco. "Sr Mingus a bisa, "P'esey, tur dos, esun cu ta duna e petroleo crudo y tambe esun cu ta cumpira e productonan mester worde convenci cu esaki ta e arreglo di mihó y mas provechoso pa nan, si nos ta pa sigui existi".

Ta di comprende cu Venezuela ta mashá interesa den con Lago ta conduci su asuntunan, y mientra ta mas economico y provechoso pa rafina na Aruba, tin hon chens pa e posicion di Aruba keda mantene seguro. E 38 paisnan cu ta cumpira azeta fo'i Aruba lo sigui haci esey mientras esey ta economico y provechoso pa nan. Costonan di operamente na Aruba mester keda mantene comparativamente abao pa por competi cu otro fuentenan di abastecimento, particularmente cu rafinerianan of rafinerianan proyecta den e 38 paisnan aki; pasobra nan produccion lo worde protehá door di belasting ariba importacion (invoerrecht) cu lo ta na favor di e rafineria na nan mes tera. Tambe, pa proteha nan placa y duna empleo na nan mes hendenan, e cumpradornan aki

di productonan di Lago ta ancioso pa importa petroleo crude y rafina e productonan den nan mes tera. E factornan aki ta haci ganancia pa Venezuela y prijs abao pa e cumprador di importancia grandi pa Lago y Aruba.

Historia ta muestra cu unda unionnan politico tabata activo, resultadonan tabata desastroso pa e compania, e empleadonan, publico en general, e economia di e tera y hasta e partidonan politico mes.

Como prueba di loque dificultadnan cu trahadornan por haci cu un compania grandi, Sr. Mingus a menciona e reciente caso di United Fruit Company na Guatemala. Aya, pa motibo di demandanan extravagante, United Fruit Company a anuncia cu e ta liquida su propiedadnan cu tin un valor di 80 millon dollar, y sali fo'i e tera ey. E contesta.

Lago ta contra di unionnan di trahadornan ariba base politico, pero e ta mbashá duro na favor di algo otro. Esey ta Lago Employee Council.

"Den LEC", Sr. Mingus a bisa, "tin representantenan cu a worde libremente elegi door nos trahadornan, y solamente nos trahadornan, cu e derecho di negosha ariba sueldonan, oranan y condicionnan di trabao. Nos ta kere cu esey ta e mihó arreglo pa Lago y pa Aruba".

Door di eligimentonan cu ta tuma lugá cu frecuencia, empleadonan tin on chens pa expresa nan aprobacion of desaprobacion cu nan representantenan den LEC.

LEC ajuda ta jong — menos cu dos aña di existencia — pero e a haci progreso como un cuerpo pa negosha, y por desaroya y bira un organizacion fuerte, bon capaz pa maneha tur asuntunan di empleadonan cu directiva di Compania. Den LEC speranza di Lago — y di Aruba — ta. Pasobra, si Aruba hiba asuntunan di trahadornan den peleanan di partidonan politico, e resultado lo ta e mes conflicto desastroso cu a proba fatal den asina hopi otro teranan.

Surinam Beauty Is A Guest in Aruba

Varydi Sauwma, "Miss Heinekens," is shown being interviewed by members of the press in Oranjestad.

Surinam beauty Varydi Sauwma, second-place winner in a beauty contest in Paramaribo, was a guest in Aruba last week. The contest was sponsored by Varia, a picture newspaper in Surinam. Winner of the contest was Olga Tjon-En-Fa who is visiting in Aruba this week.

Named "Miss Heinekens" by the Heinekens Company, Miss Sauwma was their guest during her stay.

Among the highlights of her visit were a sightseeing tour of the island and a tour of the refinery; she tossed out the first ball in a baseball game between Heinekens and the Dodgers which the latter won 4 to 1, and she was guest of honor at a reception and dance held at the Surinam Club.

Her tour also included a visit to Curaçao.

Five Out of One Pod

There were five peas in one pod; they were green, and the pod was green, and so they thought all the world was green; and that was just as it should be. The shell grew and the peas grew; they fitted close together, sitting all in a row. The sun shone, and warmed the husk, and the rain made it clear; it was mild and pleasant in the bright day and in the dark night, just as it should be, and the peas as they sat there became bigger and bigger, and more and more thoughtful, for something they must do.

"Are we to sit here forever?" asked one. "I'm afraid we shall become hard by long sitting. It seems to me there must be something outside - I have a kind of notion of it."

And weeks went by. The peas became yellow, and the pod also.

"All the world's turning yellow," said they; and they had a right to say it.

Suddenly they felt a tug at the shell. The shell was torn off, passed through two hands, and glided down into the pocket of a jacket, in company with other full pods.

"Now we shall soon be opened!" they said; and that is just what they were waiting for.

"I should like to know who of us will get farthest!" said the smallest of the five. "Yes, now we shall soon see."

"What is to be he will be," said the biggest.

"Crack!" the pod burst, and all the five peas rolled out into the bright sunshine. There they lay in a child's hand. A little boy was clutching them, and said they were fine peas for his pea-shooter; and he put one in and shot it out.

"Now I'm flying out into the wide world, catch me if you can!" And he was gone.

"I," said the second, "I shall fly straight into the sun. That's a shell worth looking at, and one that exactly suits me." And away he went.

"We'll go to sleep," said the two next, "but we shall roll on all the same." And they certainly rolled and tumbled down on the ground before they got into the pea-shooter; but they were put in for all that. "We shall go farthest," they said.

"What is to happen will happen," said the last, as he was shot forth out of the pea-shooter; and he flew up against the old board under the garret window, just into a crack which was filled up with moss and soft mold; and the moss closed round him; there he lay, a prisoner, but not forgotten.

"What is to happen will happen," said he.

Within, in the little garret, lived a poor woman, who went out in the day to clean stoves, chop wood small, and to do other hard work of the same kind, for she was strong and willing. But she was always poor, and at home in the garret lay her half-grown only little girl, who was very delicate and weak; for a whole year she had kept her bed, and it seemed as if she could neither live nor die.

"She is going to her little sister," the woman said. "I had only the two children, and it was not an easy thing to care for both, but the good God provided for one of them by taking her home to Himself; now I should be glad to keep the other that was left me; but I suppose they are not to be separated, and my sick girl will go to her sister in heaven."

But the sick girl stayed where she was. She lay quiet and patient all day long, while her mother went to earn money out-of-doors. It was spring, and early in the morning, just as the mother was about to go out to work, the sun shone pleasantly through the little window, and threw its rays across the floor; and the sick girl fixed her eyes on the lowest pane in the window.

"What may that green thing be that looks in at the window? It is moving in the wind."

And the mother stepped to the window, and half opened it. "Oh!" said she, "on my word, that is a little pea which has taken root here, and is putting out its little leaves. How can it have gotten into the crack? That is a little garden with which you can amuse yourself."

And the sick girl's bed was moved nearer to the window, so that she could always see the growing pea; and the mother went away to her work.

"Mother, I think I shall get well," said the sick child in the evening. "The sun shone in upon me today delightfully warm. The little pea is growing fast, and I shall grow too, and get up, and go out into the warm sunshine."

"God grant it," said the mother, but she did not believe it would be so; yet she took care to prop with a little stick the green plant which had given her daughter the pleasant thoughts of life, so that it might not be broken by the wind; she tied a piece of string to the window sill and to the upper part of the frame, so that the pea might have something round which it could twine, when it shot up; and it did shoot up, indeed — one could see how it grew every day.

"Really, here is a flower coming!" said the woman one day; and now she began to hope that her sick daughter would get well. She remembered that lately the child had spoken much more cheerfully than before, that in the last few days she had risen up in bed by herself, and had sat upright, looking with delighted eyes at the little garden in which only one plant grew. A week afterward the sick child for the first time sat up for a whole hour. Quite happy, she sat there in the warm sunshine, the window was opened, and outside before it stood a pink pea blossom, fully blown. The sick girl bent down and gently kissed the delicate leaves. This day was like a festival.

"The Heavenly Father himself has planted that pea, and caused it to grow, to be a joy to you, and to me also, my blessed child!" said the glad mother, and she smiled at the flower, as if it had been a good angel.

But about the other peas? Why, the one who flew out into the wide world, and said, "Catch me if you can," fell into the gutter on the roof, and found a home in a pigeon's crop; the two lazy ones got just as far, for they, too, were eaten up by pigeons, and thus at any rate, they were of some real use; but the fourth, who wanted to go up into the sun, fell into the sink, and there he lay in dirty water for weeks and weeks, and swelled prodigiously.

"How beautifully fat I'm growing!" said the Pea. "I shall burst at last; and I don't think any pea can do more than that. I'm the most remarkable of all the five that were in the shell."

And the Sink said he was right.

But the young girl at the garret window stood there with gleaming eyes, with the rosy flush of health on her cheeks, and folded her thin hands over the pea blossom, and thanked Heaven for it.

Members of Order Initiated

Members of the Order are, front row, left to right, Eldra Simmons, Amalia Richardson, Rosetta Symth and Catalina Ellis. Back row, from the left are Alice Davis, Mary Brown, Rosemund Wilson, Annie B. Simmons, Claudina Payne, Mary E. Hillman, Agatha Rawlins, Maria Black, Agatha Abrahams, Yvonne Arrindel and Evelyn Stephens.

The Past Most Noble Governor's Chamber of the Household of Ruth, Grand United Order of Oddfellows, was established in Aruba August 26.

Initiation ceremonies were held August 22. Installation of officers and the dedication of the Chamber took place the following Sunday. All the other branches of the Order were

invited to attend.

Sister Claudia Payne performed the duties of installing and dedicating officer. After the ceremonies a banquet was held for the Chamber Governors and their guests.

The Chamber will be known as the Jewel of Aruba Past Most Noble Governor's Chamber No. 228.
